

Grassroots and early exploration minerals investment opportunities

Project Status Definitions

Grassroots Exploration (GE): This category is for exploration tenements with identified prospectively, but with little or no drilling undertaken

Early Exploration (EE): This project is at a preliminary stage of investigation. While the company might have reported some exploration results, the information is not yet sufficient to publish results using the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (JORC Code).

Chilling Project - uranium, gold, base metals (EE)

Majority owned by Crossland Strategic Metals Ltd (ASX:CUX)
The 515 km² project area has historically produced base metals, gold and tin. Drilling has discovered uranium and gold at two prospects so far, including 0.5 m at 0.816% U₃O₈.
Contact Mr Geoff Eupene, Executive Director
Ph: +61 8 8981 5911 geupene@crosslandstrategic.com

Mount Stafford Project – rare earth elements, uranium, precious metals (GE)

Majority owned by Crossland Strategic Metals Ltd (ASX:CUX)
The 1,514 km² project area has been subject to a regional stream sediment survey and the company has identified five anomalous areas for follow up.
Contact Mr Geoff Eupene, Executive Director
Ph: +61 8 8981 5911 geupene@crosslandstrategic.com

Ngalia Basin Project – uranium (EE)

100% owned by a subsidiary of Thundelarra Ltd (ASX:THX)
The 1,340 km² project area has been subject to a gravity survey and drilling campaigns which defined uranium mineralisation. Highlights include 1 m @ 1798 ppm U₃O₈ and 7 m @ 1408 ppm U₃O₈.
Contact Mr Tony Lofthouse, Chief Executive Officer
Ph: +61 8 9389 6927 tony.lofthouse@thundelarra.com.au

Nabarlek Project – uranium, platinum group elements, gold (EE)

Part-owned by a subsidiary of Uranium Equities Ltd (ASX:UEL) with rights to earn-in 100% ownership.
The 500 km² project area includes the historic Nabarlek Mine (100% owned by the company) which profitably produced uranium from 1979–88. A number of drilling programs have taken place since 2006, with highlights including 6.8 m @ 6.71% U₃O₈ and 4.5 m @ 0.91 g/t.
Contact Mr James Merrillees, General Manager
Ph: +61 8 9322 3990 james.merrillees@uel.com.au

Mt Hardy Project – base metals, precious metals (EE)

100% owned by TNG Ltd (ASX:TNG)
The 521 km² project area has been subject to geophysical surveys (HELITEM, gravity and induced polarisation surveys, downhole electromagnetic surveys) and diamond drilling. Highlights include 13 m @ 1.17% Cu, 1.82% Zn and 0.46% Pb.
Contact Mr Paul Burton, Managing Director
Ph: +61 8 9327 0900 peb@tngltd.com.au

Neutral Junction Project – gold, silver, copper – (GE)

Majority owned by Bowgan Minerals Ltd (unlisted)
The 382 km² project area is close to small-scale historical base and precious metal mines. The company has completed an intensive soil and rock chip sampling program, resulting in samples with 1.57 g/t Au, 0.75 g/t Ag and 580 ppm Cu.
Contact Mr David Downey, Director
Ph: 61 2 8999 1012 david@bowgan.com.au

Northern Territory Government, Department of Mines and Energy, Investment Attraction Division

Ms Fiona Park, Director Investment Attraction
T: +61 8 8999 1385 E: Fiona.park@nt.gov.au

For more information on these projects or others available in the Northern Territory, visit www.core.nt.gov.au

Bowgan Project – uranium, gold, base metals (GE)

Majority owned by Bowgan Minerals Ltd (unlisted)
The 390 km² project area has been subject to more than 500 line-km of magnetic surveys and an intensive soil and rock chip sampling program. Historical drilling results include 1 m @ 0.27% Cu and 0.21% Zn.
Contact Mr David Downey, Director
Ph: 61 2 8999 1012 david@bowgan.com.au

Irindina Project – copper, gold, nickel (GE)

100% owned by Red Metal Ltd (ASX: RDM)
The project area comprises 332 km² granted tenements, with a further 9,700 km² under application. Previous exploration over this large area has been limited, however the area is close to known high grade copper sulphide deposits.
Contact Mr Rob Rutherford, Managing Director
Ph: +61 2 9281 1805 info@redmetal.com.au

Tennant Creek Project – copper, gold (GE)

100% owned by Red Metal Ltd (ASX: RDM)
The 1,464 km² project area was subject to limited exploration during the 1970s, and is in the same region as the Tennant Creek Goldfield, one of Australia's top five goldfields.
Contact Mr Rob Rutherford, Managing Director
Ph: +61 2 9281 1805 info@redmetal.com.au

Kirkimbie – diamonds, base metals (GE)

100% owned by Daylight Jack Minerals Pty Ltd (unlisted)
The 418 km² project area has been historically subject to stream sampling and limited drilling, and an area south of the granted tenements recovered microdiamonds. In 2013 the area project was subject to airborne magnetic, radiometric and digital terrain surveys.
Contact: Mr Tony Martin, Chief Executive Officer
Ph: +61 438 751 732 daylight_jack@hotmail.com.au

Compass Creek Project – gold, silver, copper, tin (GE)

100% owned by Ismins Pty Ltd (unlisted)
The 60 km² project area has been subject to a detailed airborne electromagnetic survey, a ground magnetic survey, stream, soil and rock chip sampling and a 16.5 line-km dipole-dipole resistivity survey.
Contact: Mr Lee Spencer, Director
Ph: +61 2 4341 1273 lkspencer@ozemail.com.au

Kurundi Project – precious metals, base metals (GE)

Jointly owned by five joint venture partners, together referred to as the Kurundi Group (unlisted)
The 287 km² project area includes evidence of historical surface workings. To date the owners have undertaken soil and rock chip sampling at the site.
Contact: Mr Kevin Dunnell, Designated Contact
Ph: +61 419 198 869 goldmeteor@bigpond.com

White Range Gold Mine – gold, silver, copper (EE)

100% owned by Red Dingo Corp Pty Ltd (unlisted)
The White Range Gold Mine operated from 1990–91. Based on more than 730 percussion and diamond drill holes, the mine's new owners believe that there may be sufficient gold remaining at the site to justify a recommencement of operations.
